

## Manufacturer's information

according to Regulation (EU) 2016/425, Annex II, Section 1.4. (published in the Official Journal of the European Union)

Please read carefully before using! You are required to enclose this information leaflet when passing on the personal protective equipment (PPE), or to present it personally to the recipient. You may therefore reproduce this leaflet at your own discretion.

### Declaration of Conformity

These gloves are classified as personal protective equipment (PPE). The CE mark confirms that the product satisfies the applicable requirements of Regulation (EU) 2016/425.

### A. Markings on the boxes:

Trademark, model no., size, CE icon, at foodstuff suitability: glass and fork symbol, pictograms, i-mark, factory icon with date of manufacture: month/year

These gloves are classified as personal protective equipment (PPE). The CE mark confirms that the product satisfies the applicable requirements of Regulation (EU) 2016/425.

The "glass-and-fork symbol" testifies that the product complies with the applicable requirements of Regulation (EC) 1935:2004 (and subsequent amendments) and can be used in the preparation and handling of foodstuffs.

i mark: Reference to the manufacturer's information

date of manufacture month/year: 00/0000

### B. Explanation and numbers of the European standards whose requirements the gloves satisfy:

standards retrieved from: the Official Journal of the European Union. Available from Beuth Verlag GmbH, 10787 Berlin, [www.beuth.de](http://www.beuth.de)

#### Materials and articles in contact with foodstuffs:

- EN 1186-1:2002, Part 1: Guide to the selection of conditions and test methods for overall migration
- EN 1186-5:2002, Part 5: Test methods for overall migration into aqueous food simulants by cell
- EN 1186-14:2002, Part 14: Test methods for substitute tests for overall migration from plastics
- EN 13130 and CEN/TS 14234 „Materials and articles in contact with foodstuffs – Plastics“

These gloves are suitable for direct contact and handling with all types of foodstuff for a short period according to the tests in accordance with the Regulation (EC) No. 1935: 2004 and Regulation EU 10/2011.

They comply with the provisions of:

- Regulation (EC) No. 1935:2004 of the European Parliament and of the Council dated 27 October 2004 on materials and objects intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 388/4 dated 13.11.2004, as amended by Annex No 5.17 to Regulation (EC) No. 596/2009 dated 18 June 2009, Official Journal of the European Union L 188 dated 18.07.2009, Article 3.

And fulfil the requirements of:

- Regulation (EU) No. 10/2011 of the Commission dated 14 January 2011 on materials and objects made of plastic and intended to come into contact with foodstuffs, Official Journal of the European Union L 12/1 dated 15.01.2011, last amended by Regulation (EU) 2018/213 of the Commission dated 12 February 2018, Official Journal of the European Union L 41/6 dated 14.02.2018.

The disposable gloves can therefore be used safely in the food industry for the preparation and handling of foodstuffs. Their unprinted surfaces may come into direct contact with dry, watery, acidic and alcoholic foodstuffs and dairy products for short periods of time. The permitted ratio of glove surface area to food quantity is 8.4 dm<sup>2</sup> per 5 kg of food. The technical suitability of the products must be guaranteed. This also includes a possible sensory influence on the food.

(Further information is available on request.)

The clearance declaration No. NOF-040BK-N-3CZ from 28.02.2019 was issued by:  
Semperit Technische Produkte Ges.m.b.H.  
Modecenterstrasse 22  
1030 Vienna  
Austria

### C. Purpose, applications and risk assessment:

Applicable for many hygiene tasks and/or to protect the wearer, such as in the food processing industry, building cleaning and cleaning in general, warehousing and logistics, sorting and packaging work

Please note that the actual conditions of use cannot be simulated and that the decision on the glove's suitability for its intended purpose therefore lies exclusively with the user. The manufacturer is not responsible for improper use. Hence, an assessment of the residual risk should be performed before use in order to determine whether this glove is suitable for its intended purpose.

#### Precautionary measures during use:

**These gloves belong to category 1 and are only suitable for use when exposed to minimal risks.**

This category only includes gloves that protect their user against:

- Mechanical activities with exclusively superficial implications (e.g. gardening gloves).
- Detergents with a weak or decreasing impact (e.g. gloves worn when using diluted detergent solutions).
- Dangers when handling hot substances that do not expose the user to temperatures above 50° Celsius, or hazardous substances.
- Atmospheric influences that are neither unusual nor extreme (seasonal clothing).
- Slight impact or vibration that does not affect the vital organs and whose implications will not cause irreparable damage.

**These gloves must not be used for activities associated with more excessive stress or risks (e.g. caused by chemicals, thermal conditions or similar influences).**

### D. Cleaning, care and disinfecting:

#### Washing Instructions:

This product is a disposable single use product and therefore should not be washed, bleached, tumble-dried, ironed, professionally dry cleaned or wet cleaned.

The gloves must be carefully examined before they are worn to ensure that there is no damage. These gloves are single-use, disposable products; used gloves must be properly disposed of after use. If the gloves are contaminated with impurities that could pose a hazard, we recommend that the gloves be carefully wiped down alternating right and left. Use the gloved hand in such a way that the gloves can be removed without unprotected hands coming into contact with the impurities.

**E. Storage and aging:**

Keep in a cool, dry place; do not expose to direct sunlight; keep away from any ignition sources; store in the original packaging if possible. The mechanical properties of the gloves will not change for a period of up to 3 years from the manufacturing date, provided they are stored as recommended. A precise service life cannot be stated, as it depends on the type of use and on whether the user ensures that the gloves are used exclusively for their intended purpose. The manufacturing date (month/year) is stated on the gloves.

**F. Disposal:**

Used gloves may be contaminated with environmentally harmful or hazardous substances. Dispose of the gloves in accordance with applicable local laws.

**G. Material composition:**

**Nitrile, powder free**

**H. Packaging:**

This item will be delivered in a uniform cardboard box with a content of: 10 box

The smallest sales unit is: 100 piece/1 Box

**I. Health risks:**

Allergies, caused by the proper use of the gloves, are not yet known. If an allergic reaction still occurs, consult a doctor or dermatologist.

**Manufacturer's name and address:**

BIG Arbeitsschutz GmbH, Königsberger Str. 6, 21244 Buchholz/Nordheide, Germany
